## What is a Pairing?

Throughout the year beautiful art is created by individuals who suffer from Alzheimer's or another dementia at our more than 30 Memories in the Making® art classes held throughout the County.

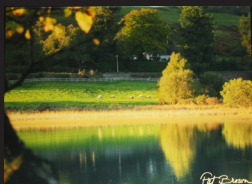

Our Memories teachers submit their 10 best pieces from the year to be considered for the Art4Alz Auction. Our team then offers the art to prominent community artists to look through and select the piece that speaks to them in a special way. From there, they create an inspired “pairing” piece to be auctioned off as a package - what we then call a “paring”.
